

## How to set up a name label station

**01** Have plenty of pre-cut paper ready for students.

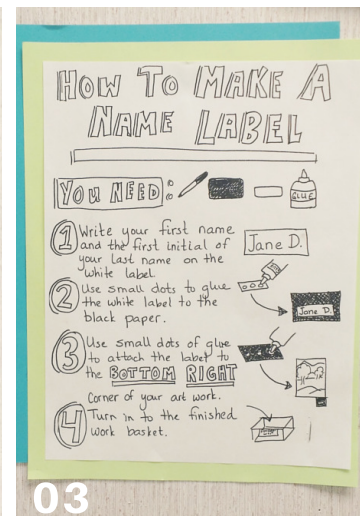

**02** Be prepared for a learning curve. Not everyone will get it right their first time.

**03** Be sure to include step-by-step directions.

**04** Provide an example of how to properly mount and label art work.

**05** Place the name label station close to where students turn in their finished work.
